

Enrichment Educational Experiences

## E3 Presents In-Home Enrichment & Learning Pods

### ENRICHMENT PROGRAM

Our five-star E3 Enrichment Program is a unique program that provides students with a once-in-a-lifetime opportunity to experience fun, hands-on curriculum. Our program is comprised of signature monthly themes and activities, resulting in creative exploration and discovery. Your children will experience the worlds of science, history, art and music by becoming scientists, geographers, artists and musicians. Children will perform experiments, paint like the masters and be introduced to a variety of musical instruments. Visit [www.enrichmentkids.com](http://www.enrichmentkids.com) to view  
Monthly Themes

*Enrichment is the perfect balance to a child's academic day!*

### DISTANCE LEARNING SUPPORT

#### **A Full Day of E3 Includes:**

→ Distance Learning ~ A space for students to work on their Distance Learning with academic assistance and guidance. An E3 Enrichment Teacher will assist students to navigate their Distance Learning and provide academic support for students to work on their assignments efficiently.

→ Enrichment ~ A variety of hands-on and fun enrichment classes for students to learn and have a lasting experience.

→ It's a Wrap ~ Additional time to finish schoolwork, enrichment projects and participate in supervised indoor or outdoor activities.

### HOW IT WORKS

- Connect with parents in your area with similar grade groups to create a 4-6 student learning pod.
- Create a schedule that works with all learning pod participants
- An E3 teacher will be assigned to your pod to relieve parents of their "teaching" duties and provide a safe, exciting, in-home experience!

*Please refer to our website to fill out a Learning Pod Questionnaire.*

**To enroll, please visit [www.enrichmentkids.com](http://www.enrichmentkids.com) and click on Enroll**

#### Schedule Options

2-5 days a week

3-4 hours a day

Please contact our Administrative Office for rates.
